

Chapter 1- Vocabulary List
Honors Anatomy

Anatomy/Physiology pgs. 2-9

Anatomy	Cells	Metabolism	Variables
Physiology	Tissues	Responsiveness	Set point
Atoms	Organs	Growth	Negative-feedback mechanism
Molecule	Organ system	Development	Receptor
Macromolecule	Organism	Reproduction	Control center
Organelles	Organization	Homeostasis	Effector
			Positive feedback mechanism

Terminology pgs. 10-17

Supine	Medial	Frontal plane	Serous membrane
Prone	Lateral	Longitudinal section	Visceral membrane
Superior	Superficial	Transverse section	Parietal membrane
Inferior	Deep	Oblique section	Serous cavity
Anterior	Quadrants	Thoracic cavity	Serous fluid
Posterior	Regions	Mediastinum	
Proximal	Sagittal plane	Abdominal cavity	
Distal	Transverse plane	Pelvic cavity
