

**Chapter 15- The Respiratory System Vocabulary List**  
**Honors Anatomy**

**Anatomy of the Respiratory System**

Inspiration	Soft palate	Vocal cords	Terminal bronchioles
Expiration	Uvula	Vestibular folds (false)	Alveolar ducts
Upper respiratory tract	Pharynx	Vocal folds (true)	Alveoli
Lower respiratory tract	Oropharynx	Laryngeal prominence	Surfactant
Nose	Nasopharynx	(Adam's Apple)	Lungs
Nasal cavities	Laryngopharynx	Trachea	Parietal pleura
Nasal conchae	Larynx	Primary bronchi	Visceral pleura
Nostrils	Epiglottis	Secondary bronchi	Pleural cavity
Nasal septum	Glottis	Tertiary bronchi	Pleural fluid
Hard palate		Bronchioles	Surface tension

**Lung Volumes and Ventilation**

Ventilation	Spirometry
Inspiration	Spirometer
Expiration	Pulmonary volumes
External intercostal muscles	Tidal volume
Diaphragm	Inspiratory reserve volume
Internal intercostal muscles	Expiratory reserve volume
Alveolar pressure	Vital capacity
Atmospheric pressure	Total lung capacity
Lung recoil	Residual volume
Surface tension	Forced expiration
Surfactant
