

**Urinary System- Patient Case Scenario Part 2
Final Graphic Organizer**

For this final part of the patient case scenario, you and your group will narrow your evidence to only pertinent information related to your diagnosis. For the evidence you decide upon, provide a reason as well. **EVIDENCE MAY NOT REPEAT, even if they are from different sources. REASONS MAY REPEAT.**

Finally, research and record in the **CONCLUSION**, one treatment option that you will prescribe. Explain why you chose this treatment as opposed to other treatments.

Question or Prompt: What digestive system disease does Jason have?
Claim: (Based on the evidence you have gathered so far, create an initial diagnosis.)
